PROFESSIONAL PROFILE

I am a frontend web developer seeking my first job, passionate about delivering high-quality and modern designs. With a solid foundation in HTML, CSS, JavaScript, and React.js, I have launched several responsive websites that prioritize user experience and functionality. I am committed to staying up-to-date with emerging technologies and trends in the industry, possess strong attention to detail and problem-solving skills, and am excited to contribute my skills and knowledge to a dynamic and innovative team. I am seeking a position where I can continue to grow and learn from experienced professionals while making a meaningful impact, and I believe that my skills and passion for web development can align with your company's commitment to innovation and excellence.

KEY SKILLS PROFILE

- **Tech Stack** - HTML5, CSS3, JavaScript/ES6, React, Figma, Postman, Content Management Systems, Jest, Git/GitHub, Node.js, MongoDB, Next.js, TDD, Sass, Unit Testing, React Testing Library, Jest
- **Multilingual** – Can communicate in multiple languages which facilitates progression and understanding.
- **Communication** – Employed good Verbal and Written Communication Skills to efficiently work with colleagues and different departments.
- **Teamwork & Collaboration** – Managed working efficiently in a dynamic work environment while successfully completing orders before their deadlines.
- **Flexibility** – Worked in a variety of shift patterns taking into the shifting needs of the business.
- **Self-Discipline & Organization skills** - I am able to effectively manage time and work in teams without extra supervision.

PROJECTS

- Created a Job Board app based on Next.js & React which uses a CMS API (Contentful) to retrieve data and populate the page with the required data.
- Developed the Fruitvice React App, a highly responsive application that utilizes advanced API technology to retrieve and display user-requested data seamlessly across devices of various display sizes.
- Designed a dynamic, user-friendly landing page for Mindera Code Academy using React, combining my technical expertise with my creative flair to deliver a visually striking and interactive interface.
- Created a fun and engaging Wordle Clone game, showcasing my innovative thinking and programming skills as I developed a game that challenges players to guess a hidden word with limited attempts.

WORK EXPERIENCE

JULY 2021 – PRESENT
WAREHOUSE OPERATIVE (PICK/OB) - AMAZON

- Select products accurately: Use handheld devices to locate and pick customer orders from designated shelves or bins within the fulfillment center.
- Prepare orders for shipment: Carefully and efficiently pack selected products into appropriate packaging, ensuring items are secure and well-organized for safe delivery.
- Label and document: Attach shipping labels, packing slips, and any necessary documentation accurately to each package, ensuring proper tracking and delivery information.
- Collaborate with team: Work with fellow pickers, supervisors, and other warehouse departments to meet daily targets, troubleshoot issues, and maintain a smooth workflow.

AUGUST 2021 – PRESENT
INVENTORY CONTROLLER - AMAZON

- Validated orders, conducted cycle counts, performed audits, and conducted thorough research to guarantee precise inventory levels.
- Spearheaded IT inventory management, processed inducts, and facilitated asset reception to provide unwavering support to the operations team.
- Upheld a spotless environment in the warehouse area, going the extra mile to maintain an impeccable standard of cleanliness.

AUGUST 2016 – SEPTEMBER 2021
SAFETY STEWARD - LEICESTER TIGERS

- Created a safe, secure, and enjoyable environment for customers, making sure that everyone who walked through the doors felt welcome and comfortable.
- Prioritized the safety and well-being of both customers and staff, especially those who were most vulnerable, going above and beyond to ensure their protection and care.

AUGUST 2020 – MARCH 2021
WAREHOUSE OPERATIVE - KUEHNE + NAGEL

- Streamlined the production and manufacturing process of client orders to ensure efficient and accurate output in strict compliance with the highest quality standards.
- Proactively identified and reported any health and safety hazards to guarantee a secure and risk-free work environment for all employees.

JULY 2018 – AUGUST 2018
WAREHOUSE OPERATIVE - AMAZON

- Prepared items for shipping and meticulously ensured that containers were clean, properly labeled, and securely packed to prevent any damage during transit.
- Achieved CPT deadlines ensuring that all shipments were dispatched on time and the customers would receive their items as needed.

EDUCATION

AUGUST 2022 – DECEMBER 2022

FRONTEND DEVELOPER BOOTCAMP - MINDERA CODE ACADEMY

- Mastered HTML, CSS, JavaScript, and React, honing my skills to perfection and expanding my knowledge of cutting-edge technologies.
- Collaborated closely with a talented team to develop projects, demonstrating my ability to work with others and achieve outstanding results.

AUGUST 2014 – AUGUST 2020

ISLAMIC STUDIES - JAME'AH ULOOMUL QUR'AN

- A six-year programme which covers a myriad of subjects including Arabic language, grammar, lexicology, Islamic Theology, Islamic Law, Hadith and Exegesis of the Quran
